

**AMENDMENTS TO THE SPECIFICATION**

Please replace page 10, paragraph 141, with the following amended paragraph:

The coding sequence whose gene product is essential for vector replication is under the control of a suitable tissue-specific transcriptional regulatory sequence, which may be a promoter or an enhancer. A tissue-specific promoter may be, but is not limited to, AFP, PSA, CEA, D[[E]]E3,  $\alpha$ -fetoprotein, Erb-B2, surfactant, and the tyrosinase promoter. A tissue-specific enhancer may be, but is not limited to, DF3 breast cancer-specific enhancer, enhancers from viruses, and the steroid receptor family.
